

AASRITHA LAKSHMI DAKSHINYAM

B.Tech, Artificial Intelligence & Engineering · Amrita Vishwa Vidyapeetham
aasritha.dakshinyam@gmail.com · +91 81430 97878 · [LinkedIn](#) · [GitHub: Ash19123](#)

EDUCATION

B.Tech, Artificial Intelligence & Engineering — Amrita Vishwa Vidyapeetham *Aug 2025 – Present · Amaravati, India*

- Top performer, AI Engineering cohort
- Relevant Coursework: Data Structures & Algorithms, Python for AI, Database Systems, Engineering Mathematics, Content Writing, Programming in C

EXPERIENCE

Creative Writer & Content Strategist — Aregs Technologies

Internship · 2026

- Produced SEO-optimized long-form articles, product descriptions, and technical blog posts across technology and AI domains, consistently meeting editorial deadlines.

PR and Outreach Coordinator — Robotics Technology

- Collaborated with cross – functional student teams to promote club activities and strengthen campus engagement.

Student Council — Amrita Vishwa Vidyapeetham

- Represented the student community by contributing to campus initiatives, organizing events, and supporting student engagement activities.

PROJECTS

REFLEX — Drone-Based Intelligent Surveillance System

Personal Project · Jan 2025 – Present

- Designed an autonomous drone surveillance system with real-time threat detection for public safety, integrating computer vision (YOLOv8) and anomaly detection pipelines.

ShieldSense — Autonomous Multimodal Women's Safety Detection System *Hack & Break 2026 (Unstop) · Agentic AI + Cybersecurity*

- Engineered a multimodal threat-detection platform combining audio distress classification (MobileNetV2/YAMNet), motion anomaly detection (ConvLSTM), and computer vision threat assessment (YOLOv8-nano).

FestVibe — Dynamic Festival Web Experience · 1st Place, Chakravyuha Hackathon

Solo Project · Dec 2025

- Won 1st place as the sole solo participant in a college-wide UI & Web Development hackathon; built a festival website that detects the current festival and adapts its theme, content, and visuals in real time.

RESEARCH

Physics-Driven Forensic Facial Reconstruction (PFFR Framework)

Sole Author · In Progress · 2025

- Authored an original research paper applying physics-based simulation to forensic facial reconstruction from skeletal remains.

LEADERSHIP & EXTRACURRICULARS

- Team Lead, Smart India Hackathon (SIH) 2025 — led a cross-functional team of 6 through a 36-hour national-level hackathon, overseeing architecture decisions, task delegation, and the final presentation.
- Team Lead, HackXAmrita 2.0 (2026) — directed all phases of an institution-level hackathon from problem framing to prototype delivery and demo.
- Outreach Coordinator, PR Team, Robotics Club, Amrita (Jan 2026 – Present) — managed external communications and coordinated cross-departmental robotics workshops and demonstrations, increasing event participation and campus visibility.
- Member, Avinya Club & Student Council, Amrita (Dec 2025 – Present) — contributed to student governance and technology innovation programs alongside full academic commitments.

ACHIEVEMENTS & HIGHLIGHTS

- Top performer, AI Engineering cohort (Semester 1)
- Sole author of an original research paper in AI-assisted forensic science as a 1st-year undergraduate
- 1st Place (Solo) — Chakravyuha Hackathon (UI & Web Dev), Amrita Vishwa Vidyapeetham, Dec 2025

TECHNICAL SKILLS

Languages: Python, C, Java, JavaScript, HTML/CSS, Bash

AI / ML / CV: YOLOv8, OpenCV, MobileNetV2, ConvLSTM, YAMNet, Computer Vision, Deep Learning, Anomaly Detection

Tools & Platforms: Git, GitHub, VS Code, Linux/WSL, MATLAB
